RACHEL ADAMS

Renowned author and researcher, exploring the societal impacts of artificial intelligence and global inequality

---

- Author of "The New Empire of AI: The Future of Global Inequality"
- Global expert on responsible AI
- Working to ensure AI closes, rather than widens, the global inequality gap
- Expert in the intersection of technology, ethics, and policy
- Visiting Fellow at prestigious global research institutions
- Featured in leading publications including The Guardian and The Economist

---

Rachel Adams is an influential author, speaker, and researcher at the forefront of understanding the societal impacts of artificial intelligence (AI). Her groundbreaking book, "The New Empire of AI: The Future of Global Inequality", has been acclaimed for its incisive exploration of how emerging technologies are reshaping economies, governance, and social structures worldwide.

Rachel's work bridges the worlds of technology and ethics, shedding light on the challenges and opportunities presented by AI. She has collaborated with leading research institutions and think tanks to develop frameworks for equitable and ethical technology governance. Her insights have been featured in major international media outlets such as The Guardian, The Economist, and Wired.

In addition to her research, Rachel is a sought-after speaker known for her ability to distill complex technological concepts into accessible and thought-provoking discussions. Her passion lies in advocating for policies and practices that ensure AI benefits humanity as a whole, rather than deepening existing inequalities.

TEMAS

Rachel tailors each presentation to the needs of her audience and is not limited to the topics listed below. Please ask us about any subject that interests you:

- The New Empire of AI
- Ethical AI
- AI and Inequality
- Governing Technology
