SABRINA T. HOWELL

NYU finance professor and rising expert in private equity, fintech, and innovation policy

---

- Associate Professor of Finance at NYU Stern and Research Associate at NBER
- Named a "Top 40 Under 40" MBA Professor in 2023 for her impact on research and teaching
- Published in Journal of Finance, Review of Financial Studies, and JFE
- Expert in private equity, fintech, entrepreneurship, innovation, and China's economic model
- Advisor to U.S. agencies and Congress on finance, technology, and policy design

---

Sabrina T. Howell is an Associate Professor of Finance at NYU Stern School of Business and a Research Associate at the National Bureau of Economic Research. She earned her

Ph.D. in Political Economy and Government from Harvard University and holds a B.A. in Economics and East Asian Studies from Yale University.

Her work centers on private equity, innovation, fintech, entrepreneurship, energy, and the Chinese economy—combining rigorous empirical research with policy-relevant insights. Howell has published in top-tier journals including The Journal of Finance, Review of Financial Studies, and Journal of Financial Economics, receiving awards for her contributions to understanding the social and economic effects of private capital.

In 2023, she was named one of the “Top 40 Under 40” MBA Professors globally for her research, teaching excellence, and public policy engagement.

Beyond academia, she advises government agencies such as the U.S. House Committee on Ways and Means and the Centers for Medicare & Medicaid Services. Her research has shaped public conversations around fintech access, small business financing, and energy innovation. With the ability to translate data into actionable strategy, she is a sought-after speaker for business leaders, policymakers, and global forums focused on the future of investment and inclusive growth.

TEMAS

Sabrina tailors each presentation to the needs of her audience and is not limited to the topics listed below. Please ask us about any subject that interests you:

- The Role of Private Equity in Driving Economic Productivity
- Fintech and Financial Inclusion for Small Businesses
- Innovation Financing: Grants, Capital, and Startups
- Capital Markets, Clean Energy, and the Transition Economy
- U.S.–China Competition and Global Investment Flows

PROGRAMAS

Productivity Dividend: How Private Equity Drives Real Growth

This keynote explores how private equity influences firm productivity, employment, and economic outcomes. Using large-scale empirical data, Sabrina shares why private capital—when designed well—can generate value beyond profit, including innovation and job creation.

Fintech and Inclusion: Bridging the Credit Gap

Based on her research into PPP loan automation and fintech platforms, this talk reveals how digital finance expands credit access for underserved small businesses, particularly during crises. She offers insight into building a more inclusive financial system through data and design.

Financing Innovation: Entrepreneurs, Grants, and Beyond

How can startups secure the capital they need to scale? Drawing on cutting-edge research, Sabrina explains how government grants, venture funding, and fintech intersect to support breakthrough ideas. A session ideal for leaders in policy, banking, and innovation ecosystems.
